

Protect your intellectual property rights!

Would you like impartial advice on how to protect all aspects of your Intellectual Property (IP)?

If you are amongst the increasing number of managers who need to understand intellectual property management and exploitation - to protect your company and create more profit - the Ignite IP team can help.

Contact us at info@igniteip.co.uk

Exploit **new** commercial opportunities

Ignite IP can help you manage your trade marks, designs, copyright and patents, 'intellectual assets' such as specialist knowledge, company manuals and technical expertise by:

- Showing you how to limit the costs of protecting your intellectual property and your company
- Helping you trade worldwide by using your intellectual assets effectively and protecting your products and services overseas
- Offering an in depth diagnostic approach that will help you develop a practical action plan
- Providing an impartial strategic analysis
- Offering a client management approach including practical hands on support when you need it

Find out how you can protect your Intellectual Property by contacting:
