

A woman with long hair is captured mid-jump in a field of tall grass. The background is a bright sunset with a clear blue sky. The overall mood is one of freedom and achievement.

POWER YOUR

BUSINESS

WITH DYNAMIC

GRADUATES

UNLOCKING

POTENTIAL™

Grads for

Growth

Local businesses need support and investment, talented graduates need meaningful employment: welcome to Grads for Growth, an exciting way to achieve both goals.

If you're an SME with a six to nine month innovation project that would suit an ambitious graduate, we can help take the strain.

WHAT'S IN IT FOR YOU?

We'll help you to recruit and define the role, advertise, shortlist and interview, then offer a dedicated business development team as well as a significant project investment fund. You'll also enjoy access to the latest academic thinking through our partnerships with leading universities in the South West and all projects will be supported by expert mentors. We've run in Cornwall successfully

for ten years and have helped more than 1000 businesses significantly increase their turnover and unlock growth. ERDF funding means this approach is now available throughout the South West for ERDF-eligible businesses.
