

## **Made in north somerset**

The following businesses have participated in either the Made in north somerset 'Open Doors' events this autumn or the 'Made in north somerset' Food and Craft Market at Tyntesfield. They are just some examples of the great number of local independent food, drink, art and craft producers whose products are 'Made in north somerset' and we would like to promote them to as wide an audience as possible.

We hope to demonstrate in these 'Shop Local' pages the wealth of independent businesses we have in the area. By supporting some of these businesses through your purchasing you are keeping a greater percentage of money in the local economy and supporting the future viability of these businesses.

For those people that want to 'Shop Local' and particularly want to purchase local food and crafts we hope we have made it just that little bit easier – click on any of the images and you will be taken directly to the website or e-mail address of that business for more information.

If you are or know of a local business that either makes, sells, produces or grows local products in North Somerset that might also want to appear on these pages then please get in touch by e-mailing: [business@n-somerset.gov.uk](mailto:business@n-somerset.gov.uk).

### **Disclaimer**

Whilst all these businesses are personally known to us inclusion within these pages does not imply a recommendation nor can it be considered a mark or assurance of quality/provenance. Your purchasing decisions are ultimately your own to make!
